# Aetna ACA Individual and Family Plans Broker Program

## It's easy to earn rewards

### Step 1: Qualify with new business

#### New business program

Earn credits based on new members sold in the following states: Georgia, Indiana, Kansas, Missouri, New Jersey, North Carolina, Ohio, Texas, Utah and Virginia. State determination for both qualification and payment is based on location of the subscriber, not the member.

#### New business qualification and payment

New business qualification is determined by summing the total (uncapped) enrolled new members per state in the broker's book of business which meet all the following criteria ("New business members")

GA, IN, KS, MO, NC, NJ, OH, TX, UT, VA (All metal tiers)	
New members	Per member credit
<25	\$0
25-99	\$75
100+	\$125

- Newly enrolled members with effective date of January 1, 2025
- Members who remain active as of March 31, 2025
- Members with applications submitted between November 1, 2024 and December 15, 2024 (November 1, 2024 through December 31, 2024 in New Jersey)

New business payment for each state is calculated by multiplying the earned credit per member by the broker's capped new business members as defined above.

### Step 2: Retain more, earn more

#### Retention program

Earn credits based on members retained in the following counties\* for all metal tiers:

- Georgia: Atlanta
- New Jersey: Statewide
- North Carolina: Charlotte, Triangle, Greensboro
- Texas: El Paso, San Antonio

Retained members	Per member credit
<10	\$0
10+	\$50

County determination for both qualification and payment is based on location of the subscriber, not member.

#### Retention qualification and payment

Retention qualification is determined by summing the total (uncapped) enrolled retained members in the applicable counties in each state in the broker's book of business which meet all the following criteria ("retention members")

- Members who were active as of December 31, 2024
- Members with effective date of January 1, 2025
- Members who remain active as of March 31, 2025

Retention payment per county is determined by multiplying \$50 by the broker's capped retention members as defined above.
